

# Tour Height Raising Legs

---

Save your back! When the need for a taller table arises, use the Height Raising Legs to bring the Tour Portable to a second height, up to 30" (not variable in height).

Made of solid Red Oak, they are easy to attach with 12 hand-turn knobs onto threaded metal rods (no tools required). For transport, they must be removed and carried separately from the table.

**Note:** Best purchased at time of table order. If purchased later, installation is required (instructions provided).

The Carrying Bag is a convenient way to protect the Crescent Arm Rest during transport, with some additional room for those inevitable extras. Made of durable, weather-resistant Cordura nylon and equipped with an adjustable shoulder strap, carrying handle & zipper closure.

**THULI TABLES**
